

Do you expect your POS key boards to perform in places where the brave dare not to compute?

- No springs under keys to wear
- Dual filter design protects inner components from foreign debris and liquid
- 30 Million actuations guaranteed
- IP54 rated keypad is dust & spill resistant
- TCO (Total Cost of Ownership) goes down when you calculate the cost of service calls.

Is your keyboard easy to use for the people who use it everyday -- both trainees and experienced associates?

- Etched labels on keys completely customizable for intuitive operations
- Programmed keys solve complexity by reducing keystrokes and operator errors
- No training necessary with bi-directional MSR

Designed specifically for heavy use applications, the MC84 keyboard continues to perform long after others have failed or worn out. PrehKeyTec is so confident about the quality and durability of our German engineering, that a three-year warranty is standard on every unit.

The MC84 Row & Column layout fits neatly over scanner mounting trays or on compact cash drawers. For banking and counter applications, the MC84 provides durability unmatched by standard PC keyboards.

Stuck keys - impossible
Ugly equipment - gone
Learning curves - shorter
Counter space - increased
Down Lanes - rarely
Store image - reinforced
Cable management - simplified
