

MCI 128

**Rugged Reliability**  
Are the keyboards used at the point of sale as tough and fast moving as the products you sell?

- 30 Million actuations guaranteed
- IP54 rated keypad is dust & spill resistant
- No springs under keys to wear

**Maximum Configurability**  
Are your designs being compromised by less than adequate keyboards?

- Footprint optimized by only including the modules you need
- One cable instead of 4; MSR, integrated touch pad, keyboard, LCD
- Custom configurations for unique applications are our specialty
- Keyboard housing can include your logo or your customer's logo

Designed specifically for heavy use applications, MCI 128 keyboards continue to perform long after others have failed or worn out. Preh is so confident about the quality and durability of our German engineering, that a three-year warranty is standard on every unit.

Available in both Row & Column and an Alpha layout, Preh MCI 128 keyboards optimize a small footprint by only including the integrated options needed. This efficient design, and the completely programmable layout give you everything you need - and nothing that you don't.

Stuck keys - impossible  
Ugly equipment - gone  
Learning curves - shorter  
Counter space - increased  
Down Lanes - rarely  
Cable management - simplified  
Store image - reinforced
